Backtest Settings

The screenshot displays a trading software interface with a candlestick chart on the left and a settings window in the foreground. The settings window is titled "Customize Strategy: TradeTrendStrat" and has a sidebar with "Inputs", "Entries", "Exits", and "Calculation" tabs. The "Calculation" tab is selected and circled in red. The main area of the window contains several options, with three circled in red: "Enable intrabar order generation and calculation" (checked), "Limit entries from all signals in this strategy to once per bar" (selected), and "Allow any exit from this strategy to occur multiple times per bar" (selected). The "Exits" section also has a "Limit exits from all signals in this strategy to once per bar" option. At the bottom of the window are "OK", "Cancel", and "Help" buttons. In the background, a "Customize Studies & Strategies" window is visible, showing a table of strategies with columns for Name, Input Values, Status, Buy, Sell, Sell Short, and Buy to Cover. The "TradeTrendStrat" strategy is highlighted in blue. To the right of this window is a vertical menu with buttons: "Customize..." (circled in red), "Properties for All...", "Status", "Move Up", "Move Down", "Edit EasyLanguage", and "Remove". At the bottom right of the main interface are "Close" and "Help" buttons. The top of the interface shows a status bar with data: "7 Lo=228.75 V=4,663,937 TradeTrend (12, 26, 9, 10, 3, 10, 1, 14) 232.65 234.50 191.85 230.26 207.99 244.32 Strategy (100, 12, 26, 9, 10, 3, 10, 1, 14)".
